Supervisor News March 08

Dear RVTS Supervisors,

Supervisor teleconference Wednesday March 12 8.00 pm EST

Our first supervisor teleconference is on Wednesday March 12. The aim is to provide a forum to discuss training issues. Let me know if you have any agenda items.

RVTS Clinical Teaching visit guide

I've attached the RVTS clinical teaching visit guide. I hope it is useful – I'll be interested to hear feedback on what I've left out or should have left out!

It's a large file so that all the resources are together in one document. The most important to read are the guide itself and the guidance on giving constructive feedback.

March Tele-Tutorials

It's started – we now have three tele-tutorials every Thursday night. The sessions for March are:

	Study Group	2007 intake	2008 intake
6 March	Musculoskeletal	Case: wound mx	Case: fatigue
13 March	Dermatology	Eyes	Case: anaemia
20 March	CVS	Case: chest trauma	Hypertension
27 March	Digestive	Dermatology	Paediatrics

Thank-you to the supervisors who are facilitating sessions – we value your help.

New registrar orientation weekend

There are 11 new registrars in the program and three more who are likely to join. We're holding an orientation workshop for them in Sydney on March 15 and 16.

And finally, for an insight into the life of Dr Rachel Harvey, RVTS registrar at Glenden, Queensland and the 2007 RACGP registrar of the year, see the March edition of Australian Women's Weekly.

I look forward to catching up with you next Wednesday on the teleconference.

Susan
